APPLICATION FOR APPROVAL

OF

STUDENT ORGANIZATION SALES

Beginning with the 1981-1982 school year, permission for all student sales will be approved or denied by the High School Principal. Consideration for approval will be given to school organizations that have a legitimate and specific need for raising funds.

No other sales will be permitted in school for the benefit of outside organizations or individuals.

A strict accounting of all monies received from such sales and the deposit of such funds in the activity account and expenditures from the account will be made through the high school office. Sponsors are to keep a close accounting of monies received and are responsible for bills accrued.

- No food sales will be permitted, including candy, in competition with the school lunch program. Such sales shall be limited to the homeroom period and eighth period.

Auxiliary organizations over which we have no control do carryon extensive sales programs. These programs will not operate in the school during the school day without the same permission as must be reached by a student club.

At no time will a lottery or gambling type of sale be permitted in the school.

Name of Organization _____

Sponsor's Name _____Date of Application _____
