

# Partners PE

Elizabeth Forward High School Partners PE Program.

Mrs. Kaila Miele

Kmiele@efsd.net /@MrsMiele\_EFHS

Partner PE is a success oriented physical education class featuring supervised peer tutors (you) and individualized learning and instruction.

WHO WILL BENEFIT?... Partner PE is designed to meet the unique physical education needs of students with disabilities

Focus is on...Students with disabilities The entire focus of the program is to meet the physical education needs of the students with disabilities and in the process increase social skills and build esteem.

-Peer teaching...The Partner PE program allows students with disabilities to have individualize instruction of their peer tutor.

A more inclusive school environment with the Partner PE program is that true friendships form and students with disabilities become more accepted and included in school/

Class activities include team building, learning lifelong physical activities, sport games, understanding rules and regulations as well as competing in our yearly bocce tournament with Special Olympics.

Class enrollment for this class is limited and students will have to interview and be chosen for the class. Due to many students wanting to be a part of our program, students are only allowed to take one year during their high school career to allow opportunities for other students to be involved.
