## Hello Friends!

Welcome to the Greenock and Mt. Vernon Elementary School sites. We are so proud of our schools and our 400 wonderful students.

At Greenock Elementary we teach grades kindergarten through two. In third grade our students move to their sister-school Mt. Vernon Elementary for grades three through five. Each school has been uniquely and thoughtfully developed with the needs of primary or intermediate students in mind.

Learning is personal for us. Not only are we passionate educators (to be honest we are all "teacher geeks"), we genuinely love our kiddos. We are committed to creating a safe and caring learning environment where our students have voice and choice as they engage in modern and rigorous learning.

Get in touch to learn more about our school and some of the great things we do with our kiddos including:

Badging to assess kindergarten progress.

Engineering and Design in our STEAM Tinker Labs.

Greenock Garden and Kids Kitchen

Personalized learning

Year 5 of 1:1 iPad implementation

Follow us on social media and check out my blog!

Sincerely,

Jennifer Meliton, Principal
